▼ SECTION 4 - REGULATED PRICE PLAN RATE SELECTION

As of October 13, 2020, residential and small business customers under the Ontario Regulated Price Plan (RPP) have the option to choose between time-of-use or tiered rates. Under time-of-use rate plan, the price you pay for electricity depends on when you use it. Under tiered rates, you can use a certain amount of electricity each month at a lower price, and once that limit is exceeded, a higher price applies.

The customer choice rate option initiative is only eligible for new construction starting November 1, 2020.

For more information on time-of-use and tiered rates, as well as tools to help you decide which rate plan is right for you, please visit www.oeb.ca/choice.
